

ANOTHER CHANCE

It's a big tragedy not utilizing our second chance in life. We all have opportunities but some time they die unattended. This should not kill our burning desire since we have a second chance to sprout.

God's plan is for us to utilize our potential, understand our inner selves and be in pursuit of success. Make use of the chances we have wasted despite the circumstances.

Another chance seeks to improve our desire to achieve despite the pandemic, failure and unhealthy lifestyle we have been through. How you can start it again and make it to the finish line ready to be celebrated.

"Well done good and faithful servant"
