Excuse me

What is the time

by your watch

This book is an outstanding piece of work that delves deeply into the significance of time, a universal yet often underappreciated gift from God. The richness of the authors exploration into times power to shape destinies, reveal truths and inspire personal transformation makes this book resourceful for you. With poetic narratives, profound philosophical insights and grounded biblical perspectives, the introduction itself captures one's attention into effects of time. It will challenge us to rethink of our relationship with time, offering you a compelling argument about time as a foundation of quality living. The historical and spiritual examples highlighted here will make you underscore importance of time as a tool for personal development. Before you get victimized by adverse effects of time mismanagement, allow this document become a galvanizing agent against any time-wasting habit in your life.

Engineer Fred W. Wafula is a dynamic man of God with diverse spiritual and natural gifts. Excelling as a born-again preacher, Eng. Fred is an EPRA certified electrical engineer with competent electrical skills. Nevertheless, he's a vocalist, music minister, motivational speaker, mentor, author, song writer and praise\worship trainer. He holds certificate in leadership from ASLEAD INSTITUTE. He's the rightful author of 'UNDERSTANDING THE POWER OF LIGHT IN DARKNESS and also a C. E.O and founder of FRECY MOTIVATIONS AND ADVISORY NETWORKS. He's fully passionate in impacting young generation and helping them to discover their identity and Gods' given potential. Married to Cynthia Muindi and blessed with two sons, he stays in Yatta, Machakos but hails from Mumias Kakamega county.
