

About the book

The best gifts in life are those that keep on giving. This little book is a gift from me to you. It highlights some of the principles that I live by that I choose to call my little reminders for the soul.

We all have some reminders that guide our actions, I challenge you as you read this book to look within yourself and develop some of your OWN reminders for the soul.

About the author

Dr. Kimencu, is a lecturer at Kenyatta University from the School of Business. She is passionate about life and living a purpose-driven life and encouraging others to live a purposive Christ-Centered life.
