THE POWER OF WISDOM

ABOUT THE BOOK:

Wisdom is a divine deep understanding of things and the ability to make sound judgment against many tricky situations we find ourselves in the world today. The Solomonic wisdom was the greatest asset to the children of Israel. Those who lack wisdom will drift badly into the den of foolishness, brainless and may become lunatics who can be destroyed easily and mercilessly. Without God's wisdom we are completely cooked and we will always be in the devil's menu. God uses wise people like preachers of the gospel to minister to the world. No one can survive this world of confusion and immense deception without wisdom from above. The world wisdom including excelling in academics is not enough at all. That is why today there are many professionals with exciting degrees but they fail miserably and terribly in life due to the lack of the real wisdom. Real transformative wisdom comes from God and not just the education systems in the world. Wisdom is the old and the new gold.
