

THE WILD DANCES OF THE MIGHTY PENS

ABOUT THE BOOK:

Pen is a sweet executioner, slayer of nefariousness out of men. Words do change events as history bows to pay homage. These two great writers regardless of their age, and gender display that within the blood of their pens lies the key to the globe, like the heavy winds from the Saharan desert, their pens blow ignorance out of men. Ink imbues their thirst to present the sore hidden secrets in a humorous way, melancholy, and mourning reflecting through similes, and personification. In their scornful expression they rebel against destiny. They also cherish the exquisite things in life. Passion assembles, and intensifies innumerable ideas here. The variance deployed connects hearts for perspective, and justification.
