REV. JOHNSON
MUGAMBI MUTIKWA

Leading Edge Leadership: Discover Your Leadership Gift, is a book written using the principles and leadership philosophy of Jesus Christ. The vision of this book is to appreciate, inspire and encourage leaders to become better influences.

And for you to become a leader, of course; is very important for you to know a few basic principles. First of all, you must believe that you were born with the capacity to influence other people and the world.

Secondly, you must believe that you possess the potential and the ability to influence the world with your gift.

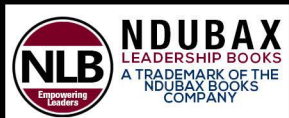

And thirdly, you must believe that you were created by God; and born in this generation because whatever you have, your generation needs. That means you are significant to the world.

REV.
